INSIST UPON STECKLER'S WINTER LAWN GRASS

A good lawn is unquestionably the most beautiful and most valuable feature of the home grounds. Nothing can impart the same dignity or appearance of refinement than a well made and well kept lawn. A well kept lawn is not only beautiful but it increases the value of the property on which it is growing.

It should be borne in mind when considering the making of a lawn that the cost of the seed represents only a small part of the investment and the best seed should be purchased at all times in order to have the best appearing lawn.

We are the largest handlers of Winter Grass Seed in the South and we shall be glad to have your inquiries either by mail or over the phone, giving the number of feet to be planted and we assure you that price will be right.

Domestic Italian Rye Grass—Grown in the United States, from the Imported Italian and English. Used extensively today in America for Lawns, Golf Courses, Meadows and Pastures and is claimed to be hardier than the Imported varieties. Slightly darker and stays green longer in the early summer. Requires 300 pounds to the acre on Lawns and Golf Courses and 40 to 50 pounds for pastures. Price: 1 lb. 25c; 5 lbs. 75c, postpaid. Write for prices on larger quantities.

Australian Winter Peas—A new winter legume, resembles on early table or English pea in size of seed, a heavy yielder, can be grazed and will put on a good second growth with better stooing out. Makes splendid hay, excellent for turning under, a fine winter crop and soil improver. Planted from September to March. Pkt. 10c; lb. 25c; 5 lbs. 75c, postpaid. Write for prices on larger quantities.
